Blackjack splitting and doubling (optional)

DESCRIPTION

As an enterprising KfK gambler
I want to play with additional official rules
To make sure I am playing exactly like the casinos do

LABELS

blackjack

TASKS (0/8)

☐ A player dealt 2 identical cards may split them into 2 separate hands, each dealt another card and played independently

☐ Each new hand is granted an additional bet the same as the first

☐ The player may not split if they don't have enough chips to cover the bet

☐ Dealt blackjacks don't pay 3:2 for split hands

☐ Players may continue to split if dealt pairs

☐ A player may double down (double the bet and receive only 1 additional card) on their first turn

☐ A player may double down on the first draw for a newly split hand as well (it is treated as "new").

☐ A player may not double down if there is not enough chips in the bank
